Unitex Launches “Green Video”

We are excited to announce that a video that demonstrates and explains how Unitex is fundamentally green every single day is now live! We encourage you to watch it to fully understand how committed we are to sustainable business practices and conservation of natural resources. The video is a resource that we hope everyone will use and is currently posted on our [YouTube channel](#) and is in our [video library](#) on the website. We are also working on an information page at www.unitex.com/green with downloadable stats. If you have any questions please contact Seth Gershman at sgershman@unitex.com.

The screenshot shows a YouTube video player interface. At the top, there is a search bar with the text "unitex video channel" and a magnifying glass icon. Below the search bar is a video player with a landscape background featuring a large tree on a hill under a sunset sky. The video player has a progress bar at the bottom showing "0:03 / 4:59". Below the video player, the title "Unitex is Green" is displayed, along with "402 views". To the right of the title, there are icons for likes (2), comments (0), share, save, and a menu icon.

Unitex Supports “School Kids Sweep Up Day” in New Brunswick, NJ

For the past 6 years the team at Unitex has been a major supporter of the New Brunswick School Kids Sweep Up Day. During this annual event, 5th graders from various New Brunswick schools remove litter from around the school grounds and city streets. This year 1,680 pounds of litter was collected.

Volunteers from Unitex worked with students and teachers from **Paul Robeson Community School for the Arts**. Everyone wore gloves and safety vests and took to the streets with pickers and bags in an effort to beautify the city in honor of Earth Day. In addition to leading groups of students around the city, the Unitex team also provided lunch for everyone involved.

“This event is important to our company and the local employees in New Brunswick and we are happy to be part of it every year,” said **Seth Gershman**, *Marketing & Communications Director*, Unitex. “The future of the planet is dependent on the younger generation and we feel that it is important to set a good example for the students we meet.”

Unitex and NewYork-Presbyterian Team Up to Promote Green Initiatives

For the 4th straight year Unitex and the sustainability team at NewYork-Presbyterian Hospital (NYP) spent "Laundry and Linen Week" working to promote green initiatives to hospital staff throughout the NYP system including learning about proper linen handling to reduce the use of natural resources. The team visited Allen Hospital, Lower Manhattan Hospital, Weill Cornell Hospital, Brooklyn Methodist Hospital and Milstein Hospital, speaking to employees, handing out premium items, and offering advice on best practices for maintaining a green workplace. The week-long event coincided with Earth Day and was organized by **Monika Sheikh**, *Corporate Sustainability Program Administrator* along with the Unitex team.

"We are always excited for the opportunity to collaborate with Ms. Sheika and the team from NYP to help bring attention to what Earth Day represents," said **Seth Gershman** *Marketing Director*, Unitex. "Linen and Laundry Week provides the perfect platform to raise awareness on the sustainability solutions that are the bedrock of the Unitex business model. We look forward to participating in future educational events with our friends at NYP."
