Consider Our Managed Scrub Program

Unitex offers a fully managed scrub dispensing program called ScrubEx. Customers can save up to 90% on scrub replacements and 40% on scrub processing costs because unauthorized users are locked out of the automated system, increasing efficiencies and lessening frustration for surgeons, nurses, and staff.

To get scrubs from the machine, staff is allotted credits that allows them to get their scrubs by scanning the hospital ID they wear everyday. In just a few seconds the machine finds their size, dispenses it, and deducts 1 credit from their personal account.

To return the soiled scrubs they simply scan their ID again, choose Deposit, open the door and drop them in. The machine adds one back to their available scrub credit.
